REPORT

ON THE

ADMINISTRATION OF COORG

FOR 1885—86.

BY

J. B. LYALL, Esq., B. C. S.,

CHIEF COMMISSIONER.

PART I.

GENERAL SUMMARY.

The only changes in the form of the administration during the year under report were the establishment of two Munsiffs' Courts, in connection with which the Courts of the two Town Subedars were abolished. These changes are described in detail in the 47th paragraph of the report.

2. The small establishment of native surveyors employed under the Madras Survey Department in making detached surveys in Coorg was fully employed.

The Topographical Survey has not yet completed the District map of Coorg, and some of the Taluk maps are still under correction. A proposal for a Revenue Survey and Settlement of Coorg to be effected by the Mysore Revenue Survey was made during the year, and has been accepted in principle by the Government of India. The Forest Department made considerable progress in forest surveys.

3. As compared with the demand of the preceding year, there was a net decrease of Rs. 23,592 under the head of land revenue. The decrease is entirely due to the resignation of land taken up to coffee cultivation, and to extraordinary temporary remissions granted to certain half ruined estates to give the owners a chance of recovery.

4. Some improvement was apparent in the conduct and working of the Police. The pay of some of the higher appointments was slightly raised. The percentage of cases investigated by the Police in which convictions were secured was greater, and the value of property recovered was 72 per cent against 42 per cent in the previous year.

5. The number of offences reported was much larger than in the previous year, and the number of convictions was smaller. This was partly due to an increase of false charges and partly to a real increase of crime caused principally by quarrels in Coorg families. The number of Criminal Courts was reduced from 25 to 23 as explained in the 25th paragraph of the report.

6. The chief defect in Jail accommodation hitherto had been the lack of separate and distinct wards for under-trial, civil, and female prisoners; but this evil has been remedied in the year under report. The Jail now provides sufficient accommodation for 134 prisoners. The daily average number of prisoners in the jail was 95. The health of the prisoners was not so good as in the previous year judging from the number of admissions into hospital and of deaths; but the condition of the prisoners generally was better.

7. There was a decrease in the number of civil suits instituted, with a rise in their average value. The newly appointed Munsiffs have done very well.

8. There was a slight decrease in the number of documents registered under the Registration Act, but the value of property involved was higher. A satisfactory feature in the working of the Registration Department is the steady increase in the number of optional registrations during the past three years.

9. There was a decrease generally in the receipts of the Municipalities in Coorg, due chiefly to large outstanding balances. The expenditure was less than in 1884—85.

10. A corps of Rifle Volunteers, consisting of two companies, has been formed in Coorg; the enlistments are mainly from the body of European Coffee Planters.

11. There has been a slight increase in the area under cereal crops, and a decrease in the area under coffee. There is said to be an area of about 11,000 acres of coffee cultivation in the *banes* or blocks of forest attached to wet land holdings. Part of this has to be now assessed under the rules which have been lately issued for dealing with such cases.

12. The prices of rice and ragi were a little higher and the local price of coffee a little lower than in the preceding year. A startling fall has occurred in the price of cardamom, which is attributed to Planters in Ceylon having turned their attention to this cultivation, and having thrown large quantities upon the market.

13. The change in the forest law referred to in previous years' reports had not been effected at the close of the year under report. The final decision of the Government of India in favour of the application to Coorg of the Indian Forest Act VII of 1878 has since been received. One square mile has been added to the reserved forests, and 60 acres to the teak and sandalwood plantations. More timber was felled by the Forest Department than in the preceding year, but the sales from the depots were less. The income and expenditure were both less. The results of fire protection have been less successful than in the preceding two years owing partly to the negligence of the Forest subordinates and partly to the untoward circumstance of fires having crossed into Coorg from the adjoining forests of Mysore and Wynaad.

14. The budget allotment for public works was exceeded by Rs. 7,817. The work connected with the building of the bridge over the river Cauvery at Siddapur was nearly completed at the close of the year. All the old roads are said to have been raised to standard and maintained in trafficable order throughout the year. On the whole, considering the difficulties, the work done by the Public Works Department during the year is not unsatisfactory, but the public have complained with some reason of the state of some of the roads and bridges.

15. The arrangements made for combining the Telegraph and Post Offices throughout Coorg were completed. The number of messages which passed through the offices in Coorg were less than those of the previous year.

16. The total demand amounted to Rs. 6,41,183, or Rs. 64,547 less than in the previous year. The falling off occurs mainly under coffee land assessment, forests and excise.

17. The amount to be collected including the outstanding balance was Rs. 8,33,915; of which Rs. 6,43,628 were realized, leaving a balance of Rs. 1,90,287. This balance was reduced at the close of June 1886 to Rs. 89,062; of which the greater portion was on account of coffee assessment remaining to be recovered.

18. The net receipts, after deducting refunds and charges against income, amounted to Rs. 4,50,619 against Rs. 4,75,150 in the previous year. The expenditure charged against net income was Rs. 3,36,592 against Rs. 3,77,915 in the previous year; the surplus revenue was therefore Rs. 1,14,027 against Rs. 97,235.

19. The collections under District funds amounted to Rs. 42,170 leaving a balance of Rs. 1,711 for collection at the end of the year. The collections under Municipal funds, including balance in hand, amounted to Rs. 26,538 and the expenditure to Rs. 21,861.

20. The number of births recorded was 17·48 per mille against 14·87 per mille in 1884—85. The number of deaths was 16·57 against 15·08. For the first time for several years the number of births registered exceeded the number of deaths. As usual the greater proportion of deaths, or about four-fifths, is attributed to fever. About one-tenth the number of deaths was from small-pox, but there were no deaths from cholera.

21. Education continues to exhibit commendable progress. There were 202 more pupils attending the 101 public and private schools, 6 of which were opened during the year.

22. Mr. J. B. Lyall made over charge of the office of the Chief Commissioner to Mr. A. H. T. Martindale on the 21st May 1885 preparatory to proceeding on furlough for one year. Mr. C. E. R. Girdlestone officiated as Chief Commissioner from the 2nd June 1885 to the close of the year under report.

PART II.

I. PHYSICAL AND POLITICAL GEOGRAPHY.

1. Vide paragraphs 1 to 13 of the report for 1882—83.

POLITICAL.

2. For standing information under the several sections of this head, vide paragraphs 15 to 41 of the report for 1882—83.

3 CHANGES IN THE ADMINISTRATION.

Nil

RELATIONS WITH TRIBUTARY STATES AND FRONTIER AFFAIRS.

Nil.

II. ADMINISTRATION OF THE LAND.

SURVEYS.

4. Forty-eight blocks of land applied for, or appropriated for cultivation, of an area of 561·08 acres, and 16 Devarakadus or sacred forests of an area of 65·79 acres have been demarcated and surveyed. 9 special surveys were also made of lands of various kinds having an area of 559·38 acres.

5. The original plots of 128 blocks of waste land, applied for or appropriated, of an area of 620·72 acres, of 6 Devarakadus of an area 161·86 acres, and of one special survey of an area of ·53 acres were finally tested in the field.

6. Much miscellaneous work was also done in refixing missing village and estate boundary stations, and in inspecting many estates and their boundaries for administrative and revenue purposes.

7. Seventy-four Maps of estates, Devarakadus, and blocks specially surveyed, of the aggregate area of 1,475 acres, were plotted on the scale of 16 inches to the mile. 22 estate and Devarakadu maps have been lithographed, and the maps of two forest reserves, comprising an area of 7681·38 acres, have been lithographed afresh the stock having been exhausted. 13 other forest maps on the 4 inch scale have been prepared.

8. The final correction and compilation of the taluk maps of Kiggatnad, Mercara, Padinalknad and Yedinalknad, are still pending owing to various causes connected with the rectification of the boundaries. The harmonizing of traverses of the Coorg district map has been completed, and the compilation of the map is in progress.

9. The total survey charges amounted to Rs. 4,842, or Rs. 286 in excess of those of the previous year.

SETTLEMENT AND WASTE LANDS.

10. Only 31·64 acres of waste land were sold under the waste land rules, realizing Rs. 655—6—0, inclusive of the value of timber standing. Lands sold for building sites realized Rs. 1,877—11—8.

11. The subjoined table exhibits the demand of the year as contrasted with that of the preceding year under the several heads of land revenue.

Description.	1884—85.	1885—86.	Increase.	Decrease.
Assessment on Coffee land ..	1,33,193 4 0	1,08,377 14 1	... ...	24,815 5 11
Do *Saga* land wet ...	79,807 14 7	80,997 5 10	1,189 7 3	... ...
Do Do dry ..	8,260 6 6	8,155 2 10	... ...	105 3 8
Do *Jamma* do ...	62,061 5 0	61,856 10 0	... ...	207 11 0
Do *Umbli* do .	6,471 10 2	6,456 14 3	... .	14 11 11
Do *Jodi* wet ..	6,151 7 3	6,161 7 10	10 0 7	... ...
Do do dry .	366 11 9	366 15 9	0 4 0	... ...
Garden land	457 0 4	460 8 2	3 7 10	... ...
Dhuli Paddy Tax	18,450 3 5	18,555 8 2	105 4 9	... ...
Mohaturfa paid by Agriculturists ...	6 665 1 7	6,707 11 5	42 9 10	... .
Do by non-Agriculturists ..	4,382 5 11	4,572 1 8	189 14 9	... ...
Plough Tax	5,701 7 11	5,717 9 11	13 2 0	. . ..
Cardamom rents	20,913 8 2	20,910 4 0	.. .. . .	3 4 2
Total.....	3,52,888 6 7	3,29,296 4 11	1,551 3 0	25,146 4 8
Net Decrease.....	. .. ...	... .	... ...	23,592 1 8

12. The net decrease of Rs. 23,592—1—8 is more than accounted for by the decrease in the demand on coffee lands, which amounts to Rs. 24,815—5—11. The greater portion of this decrease, viz. Rs. 24,183—13—3 is due to large remissions for a term of years granted to planters whose estates are in a half abandoned condition.

13. The total increase under *saga* or fully assessed lands amounted to Rs. 1,935—12—5 and the decrease to Rs. 746-5-2 giving a net increase of Rs. 1,189-7-3. The increase is due about equally to the conversion of *jamma* lands to *saga* and to waste lands brought under cultivation. The decrease is attributable to the conversion of *saga* lands to *jamma* and to lands resumed to Government. Similar reasons explain the decrease under *jamma*.

14. The increase of Rs. 105—4—9 under the Dhuly paddy tax was derived from lands newly taken up or transferred to new settlers, and the increase of Rs. 232—8—7 under Mohaturfa is due to increase in the number of persons who pay the tax.

GOVERNMENT ESTATES

15. Nil.

WARDS' ESTATES.

16. Out of the wards of the District Judge's Court one died during the year, and seven attained their majority. The number of wards' estates in charge of the court is at present 46.

III. PROTECTION.

17. Vide paragraph 55 of the report for 1882—83.

COURSE OF LEGISLATURE.

18. No Act was specially extended to the province during the year; but Regulation No. 1 of 1885, a regulation to amend the Coorg Courts Regulation, 1881, received the Governor-General's assent on the 26th March 1885, and was brought into operation in the year under report.

POLICE.

19. The following statement shows the total number of cognizable cases reported to the Police and to the Magistrate direct during the years 1884 and 1885.

Class.	Offences.	1884.	1885.	Increase.	Decrease.
I	Offences against the State, public tranquility, safety, and justice...	9	20	11	...
II	Serious offences against the person	54	61	7	...
III	Serious offences against property	67	54	...	13
IV	Minor offences against person	31	81	50	...
V	Minor offences against property	436	441	5	...
VI	Other offences not specified above	37	83	46	...
	Total.....	634	740	119	13

20. Of the cases reported only 127 or 17·16 per cent were struck off as false as against 213 or 33·59 per cent in 1884. This may partly explain the fact that convictions in cases returned as true fell from 58·79 in 1884 to 43·23 in 1885.

21. Out of 493 cases investigated by the Police, convictions were secured in 177 or 35·90 per cent, as compared with 28·36 per cent in 1884.

22. Six hundred and ninety-seven persons were arrested during the year, of whom 591 were brought to trial, and 332 convicted; the figures in 1884 were 585, 483 and 242, respectively.

23. The value of property reported to have been stolen was Rs. 5,303, and the value of property recovered was Rs. 3,839, as against Rs 6,088 and 2,578, respectively, in 1884. The percentage of property recovered to property lost rose from 42·36 in 1884 to 72 39 in 1885, which is the highest percentage attained during the last 5 years.

24. The cost of maintaining the Police force, consisting of 27 officers and 161 men, amounted to Rs. 23,282 against Rs. 24,354 in 1884 or Rs. 1,072 less. The decrease is due chiefly to the fact that the men were supplied with uniforms in 1884.

CRIMINAL JUSTICE.

25. In connection with the re-arrangement of judicial business made necessary by the appointment of Munsiffs and by Regulation I of 1885, the number of Courts with second class Magisterial powers was raised from 2 to 6 by conferring those powers on the two newly appointed Munsiffs and on two more of the Subedars. On the other hand the number of courts with third class powers was dimnished from 19 to 13 by abolishing as unnecessary the criminal courts of some of the Parpattigars of Nads. The total number of courts therefore fell from 25 to 23; viz.—

1	Judicial Commissioner's Court.
1	Sessions Judge's Court.
1	District Magistrate's Court.
1	1st class Magistrate's Court.
6	2nd class Magistrates' Courts.
13	3rd class Magistrates' Courts.
23	

26. The subjoined statement exhibits the number of offences reported, the number of cases returned as true, the number of cases brought to trial, the number

of persons acquitted and the number convicted as compared with the similar figures of the year 1884.

Year.	Number of offences reported.	Number of cases dismissed without issue of process.	Number of cases returned as true.	Pending from last year.		Number brought to trial.		Total.		Number acquitted.		Number convicted.		Pending.		Ratio of offences to population.
				Cases.	Persons.	Cases.	Persons.	Cases.	Persons.	Cases.	Persons.	Cases.	Persons.	Cases.	Persons.	
1885 ...	2579	196	1786	17	38	1749	2975	1766	3013	1079	1930	644	1002	35	66	·14
1884 ...	1797	109	1545	9	17	1515	2387	1551	2404	772	1316	741	1039	17	38	·10
Increase...	782	87	241	8	21	204	588	212	609	307	614	...	...	18	28	·4
Decrease ..	...	...	...	...	...	...	..	...	...	...	..	97	37	...	...	...

27. In 8 cases 15 persons either died or escaped, as compared with 5 cases and 9 persons in the previous year.

28. The difference of 597 between the number of cases reported and the number returned as true, and which is not accounted for by the number of cases struck off, represents cases in which complaints were lodged under the Breach or Contract Act XIII of 1859, but in which the accused were not arrested or brought to trial.

29. The number of offences reported, as shown in the statement in the previous paragraph, is 2,579 against 1,797 in the preceding year. If complaints of breach of contract, which are only technically cases of crime, are subtracted, the figrues stand at 1,643 and 1,358, respectively, which is still a notable increase; but a large number (nearly 200) of these reports was rejected as untrue without issue of process, and the result of the trials in the remaining cases indicates that a larger proportion of them than usual were false, convictions having been obtained in only 644 cases against 741 in 1884 or 97 less.

30. The following table gives the percentages of convictions and acquittals to cases reported and to cases brought to trial.

Year.	Percentage of convictions to cases reported.	Percentage of acquittals to cases reported.	Percentage of convictions to cases brought to trial.	Percentage of acquittals to cases brought to trial.
1885 ...	25	42	36	61
1884 ...	41	42	41	43

31. The next statement shows the classification of offences brought to trial.

Year.	Against the State and public justice.	Against the person.	Against property.	Other offences under the Indian Penal Code.	Offences under Special and Local Laws.	Total.
1885	39	604	453	216	454	1766
1884	53	532	400	199	370	1554
Increase	...	72	53	17	84	226
Decrease	14	...	...	...	...	14
Net Increase	...	...	...	...	...	212

32. Only 7 European British subjects were tried for petty charges of violence, of whom 3 were convicted; the corresponding figures in the previous year were 19 tried and 14 convicted.

33. Eighty Criminal appeals (including 4 pending from the previous year) were heard by the Sessions Judge and by the District Magistrate. This number represents about 15 per cent of the number of appealable cases, the percentage in 1884 having been only 10. Of the 80 appeals 2 were rejected, 7 modified, 41 confirmed, 25 reversed, a new trial or further inquiry was ordered in 3 cases and 2 cases were pending.

34. In the Court in which the Chief Commissioner sits as Judicial Commissioner 12 appeals affecting 18 persons were preferred; of which 11 were disposed of as follows:—

	Cases.	Persons.
Sentence appealed against confirmed	6	8
Do reduced	3	3
Do rejected	2	2
	11	13

In the remaining one case 5 persons were concerned, and the sentence passed on 3 persons was confirmed and that passed on 2 was reduced.

35. As a court of revision the Judicial Commissioner had 9 cases affecting 16 persons for disposal. They were disposed of as detailed below:—

	Cases.	Persons.
Sentences or orders confirmed	2	3
Proceedings quashed	4	7
New trial or further proceedings ordered	1	1
	7	11

In the 2 remaining cases wherein 5 persons were concerned, the sentences in respect to 3 persons were confirmed, and a new trial or further inquiry was ordered in regard to the other two.

36. The total receipts of the Courts, Civil and Criminal, amounted to Rs. 60,310 or Rs. 2,644 more than the income of the previous year. The total expenditure was Rs. 70,997 against Rs. 68,871 for the previous year. The increase in expenditure is chiefly due to the establishment of the two Munsiffs' Courts.

PRISONS.

37. The total number of prisoners confined in the Jail at Mercara and in the 26 Lock-ups in the Province, was 1,317 against 1,175, and the daily average number of prisoners was 105·61 against 94·96 in the previous year, the daily average number confined in the Jail alone being 94·98. The accommodation hitherto available in the Jail was for 120 prisoners, but the construction, during the year under report of separate wards for male and female civil prisoners and for female under trials, has increased it so as to be sufficient for 134 prisoners.

38. The number of under-trial prisoners received into the Jail and Lock-ups during the year, including those remaining at the close of the year, was 890. Of these 713 were released, 161 convicted and sentenced, 2 died and 14 remained at the close of the year. Out of the 368 convicts confined, 269 were released, 4 executed, 7 died and 88 remained at the close of the year.

39. The number of offences against prison discipline rose from 49 in 1884 to 64 in 1885; making due allowances for the average strength, the increase is nearly

13 per cent. The following statements show the nature of the offences and the punishments awarded.

Smoking or having possession of forbidden articles	21
Offences relating to work	18
Other offences against prison discipline	24
Attempt to escape	1
	64

Nature of punishment awarded.

Solitary confinement.	Reduced diet.	Solitary Confinement with reduced diet.	Corporal punishment.	Other punishments.	By Criminal Court.	Total.
5	10	9	8	31	1	64

The column of other punishments includes hard labour, forfeiture of good marks, and fetters replaced.

40. The following table exhibits the state of health of the prisoners during the past three years.

Years.	Total incarcerated.	Average strength.	Admissions into hospital.	Died.
	No.	No.	No.	No.
1883 ...	618	110·20	126	10
1884 ...	626	87·61	109	6
1885 ...	599	94·98	179	9

The total admissions into Hospital and average daily sick have both been higher than in the year 1884. The daily average sick was 5·27 as compared with 3·82 in the previous year. The diseases have been much the same as in previous years, the chief increase being under the head of bowel-complaints. Of the 9 deaths, one was a case of murder, and death resulted from fracture of the skull; the remainder are attributable to fever, dysentery, diarrhœa and general debility. Five of the prisoners who died were under three months in Jail and were not in good health on admission.

41. Although the admissions into Hospital and the mortality was higher than in the previous year, there was an improvement in the health of the prisoners generally. Of the 226 prisoners discharged, 97 gained weight, 65 remained stationary and 64 lost weight. The percentage of those who gained and did not lose in weight was 71 against 54 in 1884.

42. The total expenditure of the Jail for the year was Rs. 9,406—15—0 against Rs. 10,279—10—0 in 1884, distributed over the following heads, as shown below :—

Head.	1885.						1884.					
	Total cost.			Cost per head of daily average number.			Total cost.			Cost per head of daily average number.		
Diet	3,807	7	8	40	1	7	4,376	4	9	49	1	6
Clothing	495	5	4	5	3	5	420	13	0	5	11	0
Hospital necessaries	36	4	6	0	6	0	405	3	3	4	9	11
Gardening and establishment ...	4,204	2	0	44	4	2	4,188	8	0	47	12	7
Contingencies	863	11	6	9	1	4	888	13	0	10	2	2
Total.....	9,406	15	0	99	0	6	10,279	10	0	117	5	2

The cause of decrease in the item of diet is due to provisions having been cheaper, and to the dieting of convicts having been given out on contract at a fixed rate of annas 1—10 per head. The large decrease under the head of hospital necessaries is due to an arrangement made with the contractor, by which he is bound to supply all articles of extra diet to sick prisoners in hospital at the uniform contract rate. The other fluctuations do not call for special remark.

43. The actual receipts by the sale of Jail manufactures were Rs. 9,170—14—1, or Rs. 182—2—8 more than in the preceding year. The expenditure amounted to Rs. 5,554—10—11 leaving a net profit of Rs. 3,616—3—2, or Rs. 124—3—11 more.

44. The average number of prisoners employed on manufactures was 24·55 of the total daily average number, and the average earnings amounted to Rs. 147—4—7. The chief sources of employment are the bakery and the printing press; in which 22 and 6 convicts, respectively, were employed. An average of 10 men have also been employed by the Public Works Department throughout the year.

45. The daily average number of prisoners in attendance at school was 70·75. The school is conducted in the evening from 4·30 to 5 o'clock. Of the number of prisoners released during the year who had been under instruction, there were, when they entered the Jail, unable to read and write 143. Able to read and write little 33; able to read and write well 19. Of the number released during the year who had been under instruction there were, when they left the Jail, unable to read and write 26; able to read and write a little 112; able to read and write well 57.

46. The total number of prisoners confined during the year in the 26 Lock-ups was 622, or a daily average of 10·63, against 461 and 7·35 respectively, in the previous year. The cost of diet was Rs. 439—10—0, or Rs. 41-5-8 per head against Rs. 279—3—2, or Rs. 37—15—9 per head in 1884.

CIVIL JUSTICE.

47. The Coorg Courts Regulation No. I of 1885 having received the sanction of the Government of India, two Courts of Munsiffs were opened in place of the Town Subedars' Courts at Mercara and Virajendrapet. The pecuniary jurisdiction of the Courts of the Taluk Subedars in Civil cases was reduced from Rs. 300 to Rs. 100, and the 1st Assistant Commissioner (who is also Magistrate of the District) was invested with powers to hear appeals from their decisions and with original jurisdiction in suits not exceeding Rs. 3,000 in value. At the same time the pecuniary limit of the 2nd Assistant Commissioner's original jurisdiction was lowered to Rs. 1,000, and his former appellate powers withdrawn. There were thus 17 Civil Courts in operation, or one more than in 1884. These Courts may be divided into 7 classes as follows :—

(*a*) 1 The Court of the Judicial Commissioner.

(*b*) 1 The Court of the District Judge being the principal Court of original jurisdiction with powers to receive appeals from the two Munsiffs' Courts and from the courts of the 1st and 2nd Assistant Commissioners.

(*c*) 1. The Court of the 1st Assistant Commissioner with original jurisdiction ranging from Rs. 1,000 to Rs. 3,000 and appellate jurisdiction over Taluk Subedars' Courts

(*d*) 1. The Court of the 2nd Assistant Commissioner with original jurisdiction from Rs. 500 to Rs. 1,000.

(*e*) 2. The Courts of Munsiffs with original jurisdiction from Rs. 100 to Rs 500.

(*f*) 6. The Courts of Taluk Subedars with original jurisdiction up to Rs. 100.

(*g*) 5. The Courts of Parpattigars with powers to entertain cases of the nature of small causes only up to the value of Rs. 50.

Total 17

48. The total number of suits instituted was 2,639 against 2,932 in 1884, or 293 cases less. The subjoined comparative statement shows the number of suits instituted in the several classes of Courts during 1884 and 1885.

Class of Courts.	1884.	1885.	Increase.	Decrease.
Parpattigars' Courts	270	297	27	...
Subedars' do	2,491	1,272	...	1,219
Munsiffs' do	...	933	933	...
2nd Assistant Commissioner's Court	157	96	...	61
1st Assistant Commissioner's do	...	31	31	...
District Judge's Court	14	10	...	4
Total.....	2,932	2,639	991	1,284
Net Decrease.....	...	...	...	293

49. Including 164 cases of the year 1884 there were for disposal 2,803 cases of which 2,564 were disposed of, leaving 239 cases pending at the close of the year. Of these 148 are on the files of the Munsiffs' Courts, 52 on the files of the Subedars' Courts, 23 on the files of the Parpattigars' Courts, and the remainder on the files of the other three Courts.

50. Out of the 2,564 suits disposed of, 1984 were uncontested and 580 contested. The percentage of uncontested suits was 77·37 against 80·25 in 1884, while the percentage decided in favor of plaintiffs in contested cases was 72·75 against 83·45 in 1884.

51. The average duration of original suits in the several classes of Courts was 53 days in contested and 31 days in uncontested cases, against 42 and 21 days respectively, in 1884.

52. There were 680 miscellaneous applications for disposal against 567 in the year 1884. 653 were disposed of, leaving 27 pending at the close of the year.

53. Out of the 580 appealable cases, appeals were filed in *131 cases or 22·60 per cent; 131 cases, including 11 cases pending from the previous year, were disposed of, leaving 11 cases for disposal.

*1st Asstt. Commr's. Court 104
District Judge's Court 27

54. The average duration of appeals was 29 days both in the 1st Assistant, Commissioner's and in the District Judge's Courts, against 29 and 32, respectively, in the previous year. Half the judgments appealed against were confirmed and the other half either modified, reversed, or the case remanded.

55. There were 18 miscellaneous appeals for disposal, 14 in the 1st Assistant Commissioner's Court and 4 in the District Judge's Court. In 9 of these cases the orders appealed against were reversed or modified.

56. There were 2,730 applications for execution of decrees, including 221 cases pending from the previous year. The corresponding number for 1884 was 2,823. 2,459 applications were disposed of leaving 271 pending. 1,376 of the applications that were disposed of were wholly infructuous against 1,393 in the previous year. The sums realized by the execution of decrees amounted to Rs. 1,08,239 against Rs. 1,25,499 in the previous year.

57. In the Judicial Commissioner's Court there were 4 regular appeals during the year, and all were contested. The decision of the lower Court was confirmed in 2 cases, reversed in 1 case, and 1 appeal was left pending at the end of the year. The value of the appeals instituted was Rs. 13,095, and the average duration of the appeals disposed of was 39 days.

58. Twenty-one second appeals were instituted in the Judicial Commissioner's Court during the year. Of these 10 were for moveable property, 6 for immoveable, and 5 were of such a nature that their value could not be estimated in money. The

value of the property involved in the 16 appeals above referred to amounted to Rs. 3,024.

59. Out of 31 second appeals for disposal (including 10 appeals pending from the previous year) 21 were disposed of leaving 10 pending at the close of the year. Of the 21 cases disposed of, in 16 or 76 per cent the orders of lower courts were confirmed against 53 per cent in 1884. The average duration of each second appeal was 95 days against 65 days in 1884.

REGISTRATION.

60. The number of documents registered was 594 or 52 less than in the previous year, the fees realized thereon being 4,355 or Rs. 26—12—0 less. The value of property involved was, however, considerably higher, being Rs. 13,92,605, or Rs. 97,118 more than that of the previous year. The increase, which is wholly under the head of immovable property, is due to two transactions in which the value of the property (coffee estates) mortgaged was large.

61. A satisfactory feature in the working of the Department is the steady increase in the number of optional registrations, the percentage on the total number of registrations having been 20·65 in the year 1883—84, 23·21 in 1884—85, and 30·63 in the year under report.

62. The receipts for the year amounted to Rs. 4,355 and the expenditure to Rs. 2,376—6—10 leaving a net surplus of Rs. 1,978—9—2. The corresponding figures for 1884—85 were Rs. 4,381—12—0 and Rs 2,432—10—6, respectively. The percentage of expenditure on receipts, 54·56, compares favourably with the average percentage for the whole of India in the year 1884—85, which is 67·09.

63. The average time taken to complete the registration of documents was 1 day and 4½ hours against 1 day and 11 hours in 1884—85, and 1 day and 17 hours in 1883—84.

64. The following statement shows the percentages of the general results of the operations of the Registration Department during the year.

Number of registrations per thousand of population.	Percentage of increase or decrease of total number of compulsory or optional registrations over previous year				Percentage of registrations affecting immoveable property to total number of registrations during the year.	Percentage to total number of registrations during the year.		Percentage of increase or decrease of—						Number of offices not self-supported.

MUNICIPAL.

65. The subjoined statement shows the state of the finances of all the Municipalities of Coorg.

	Mercara.			Virajendrapet.			Frasерpet.			Somawarpet.			Kodlipet.			Total.		
Balance on 1st April 1885 ...	—190	3	5	3,409	10	4	429	7	4	1,499	10	8	348	11	8	5,497	4	7
Receipts in 1885-86....	9,902	8	9	8,498	2	5	918	11	6	1,238	11	0	483	1	9	21,041	3	5
Total Rs.....	9,712	5	4	11,907	12	9	1,348	2	10	2,738	5	8	831	13	5	26,538	8	0
Expenditure in 1885-86	9,396	3	11	10,878	2	0	443	13	5	741	12	0	401	13	8	21,861	13	0
Cash balance on the 31st March 1886...	316	1	5	1,029	10	9	904	5	5	1,996	9	8	429	15	9	4,676	11	0

66. The balance at credit of the Mercara Municipality on the 1st April 1885 is shown above as minus Rs. 190—3—5, while in paragraph 65 of the previous year's report the closing balance on the 31st March 1885 was given as Rs. 1,361—9—1. The difference is explained by the fact that after the close of the official year 1884—85, the Municipal funds were debited with the sum of Rs. 1,551—12—6, being the cost of medicines supplied to the Dispensary during the year 1884—85. This charge was included in the accounts of that year under instructions from the Account officer.

67. *Mercara.*—The receipts fell off by Rs. 1,727—3—5, but the outstanding balance at the close of the year, which is said to be so large as Rs. 5,057—0—4, more than accounts for the decrease. The only original work on which expenditure was incurred is a new slaughter house. The total expenditure was Rs. 2,237—0—4 less than in the preceding year.

68. *Virajendrapet.*—The receipts were Rs. 615—4—4 less, and the expenditure Rs. 7—11—6 more than in the previous year. The expenditure on original works amounted to Rs. 1,799, the works constructed being a contageous disease ward and a bridge. The outstanding balance at the close of the year was Rs. 2,372—5—8.

69. *Fraserpet.*—There was an increase of Rs. 38—2—10 in receipts over those of 1884—85, and a decrease of Rs 160—12—7 in the expenditure, which was limited wholly to charges of establishment and lighting. The Local Committee has done nothing towards improving the town for which funds are available, and which have accumulated to Rs. 904 or about a year's income.

70. *Somawarpet.*—The receipts in this Municipality were Rs. 337—8—4, and the expenditure was Rs. 384—15—0 in excess of the previous year.

71. *Kodlipet.*—There was a decrease in receipts of Rs. 85—15—0, and an increase in expenditure of Rs. 44—13—8 as compared with the previous year.

72. The average incidence of taxation per head of population in the 5 Municipalities in Coorg was Rs. 0—8—6, and the average incidence per head of Municipal income from all sources Rs. 1—4—2. The corresponding figures for 1884—85 were Rs. 0—9—10 and Rs. 1—6—1.

MILITARY.

73. The Coorg Volunteer Rifle Corps, which was organized during the year, consists of two companies enlisted almost entirely from among the community of European Coffee Planters residing in Coorg. Officers have been elected, and a paid Adjutant and two Serjeant Instructors appointed. The Corps during the year under report was under the Chief Commissioner as Local Government, subject to the orders of the Government of India. The following officers have been appointed. Vide G. O. Madras Government No. 418 dated the 7th August 1885.

North Coorg Company—	*South Coorg Company—*
Mr. Frank Mangles, Captain.	Mr. John Logan, Captain.
Mr. Edward Pearce Brown, Lieutenant.	Mr. James S. Gerrard, Lieutenant.
Mr. William Horatio Scott, Lieutenant.	Mr. James E. Young, Lieutenant.
	Lieutenant L. G. Oliver, 2nd Battalion, Middlesex Regiment Adjutant.

MARINE.

74. Nil.

IV. PRODUCTION AND DISTRIBUTION.

AGRICULTURE.

75. The total area of land held on *ryotware* tenure and consisting of land cultivated with rice, dry cereals and garden crops, is shown to be 74,905 acres as compared with 74,722 in the preceding year.

76. The area of land held under grants for cultivation of coffee and other special products and shown in Statement I E. Fiscal under the head "Purchasers of waste lands," is computed at 72,334 acres. Of this 36,315 acres were held by Europeans, and 36,019 acres by native planters. The acreage of European estates has been diminished by 1,229 acres since the previous year, while that of native holdings has increased by 364 acres. The diminished acreage under European ownership arises from relinquishment of land on two holdings in the Sampaji Ghat range to the extent of upwards of 1,200 acres. The average size of European coffee estates is estimated at 155 acres, and of native holdings at 21·10.

77. The large area of coffee cultivation on *bane* lands upon which no assessment is levied, while the lands have been alienated from the purposes of their original grant, has long attracted attention. Rules have at last been framed and issued, by which the coffee assessment will be imposed on coffee cultivation in *bane* land in excess of 10 acres in unalienated *jamma* and *sagu wargs*, and on the whole area cultivated with coffee in alienated holdings. As a preliminary to the settlement to be carried out under these rules a careful enquiry has been instituted, and a registry made af all lands to which the rules are to be applied, with the result that the acreage under the head of alienated *jamma* and *sagu* holdings is found to be 7,799 acres, and of coffee cultivation opened in unalienated *banes* in excess of 10 acres, 3,242 acres.

EXPERIMENTAL CULTIVATION.

78. The Patna paddy, a supply of which was obtained and distributed, has been favorably reported on by a planter who has been experimenting with it, and who states that it has succeeded in a dry soil and on uplands, but not in the ordinary paddy flats.

79. In response to a notice published in the Local Gazette offering to supply plants on behalf of Government for experimental cultivation, applications were received for the Erythroxylon coca and other plants hereunder detailed. These were procured from the Madras Agri-Horticultural Society and distributed among the applicants.

80. *Erythroxylon Coca.*—The reports received show that the plants have grown vigorously, and that the experiment promises to be a success.

81. *Ginger Bulbs.*—The experiment made with these did not succeed, the supply having been obtained too late in the season.

82. *Rhea Cuttings.*—Have done well in the single instance in which the experiment has been as yet tried.

83. *St. Michael Orange and Jamaica Lemon.*—A supply of these plants was obtained from the Curator of the Government Gardens, Ootacamund, and distributed to the applicants. The plants have all done well both in North and South Coorg.

84. The Revd. G. Richter has furnished the following notes on some experiments made by himself:—

"*Cyphomandra betacea.*"—Tree tomato or Jamaica Plum. "A number of "plants of this valuable fruit tree was raised from seed received through the Madras "Agri-Horticultural Society from Jamaica and distributed in the neighbourhood of "of Mercara. The growth of the plant is rapid and its fruit yielding capacity, already "in the second year, most satisfactory. A number of seedlings will be available for "distribution next monsoon."

Elais Guineensis. "African Oil Palm. Six trees raised from seed received "from the Gold Coast in Western Africa and grown in the Cinchona Garden has "yielded the first nuts during the year, which were put down into a nursery."

AGRICULTURAL IMPLEMENTS.

85. The only agricultural implements experimented with are the Swedish ploughs, which were procured in 1882—83 and 1883—84 and distributed amongst a few planters interested in the cultivation of rice. The latest reports received from some of these gentlemen express entire satisfaction with the working of these ploughs, though they concur in stating that the ordinary small cattle of the country are not capable of drawing the plough, especially in the case of lands which have lain follow

for some time or where the soil is stiff. As remarked by Mr. W. Wright the working of the plough requires the whole attention of the plough-man, and this is an additional obstacle to its use by the Natives. The Revd. Mr. Kaundinya of Anandapur finds the neighbouring ryots ready to admire the deep and clean working of the plough, but not prepared as yet to adopt it.

LABOR.

86. The demand for labor, which has slackened of late years owing to the necessity of economizing outlay, has naturally affected the supply. Several gangs of coolies which came up early in the season had to leave again for want of employment. The coffee crop proved to be an unexpectedly large one, and some difficulty was felt in obtaining adequate labor when needed, but to no serious extent. The rate of wages to coolies has undergone no change since the previous year.

LIVE STOCK.

87. The mortality among cattle during the past year is returned at 5,776 head as compared with 4,182 in 1884—85. The losses were so large during the months of June and July that special reports were called for on the subject from the Subedars of Taluks. The reports tended to show that the excessive mortality was due to the fact that owing to the drought which prevailed in the spring months the cattle suffered greatly from want of pasturage and readily succumbed during the unusual heavy rains which followed in June. There is no doubt that the poorer Coorg ryots are most indifferent as to the proper treatment even of their plough cattle. After their work, the animals are left to pick up such miserable subsistence as the forest lands near the fields at that time afford, and at nights they are driven into their sheds to lie on floor reaking with wet and filth. It is not surprising that the cattle rapidly lose condition and die.

88. *Coffee.*—The ruling price was Rs. 24 a cwt. which was lower by Rs. 2 per cwt. than in the previous year, but in the English Market the price was maintained as high as 72 shillings a cwt.

89. *Cardamoms.*—There has been a great falling off in the price of cardamoms. The price realized by most of the Native ryots did not exceed Rs. 20 a maund or Rs. 80 per cwt.

90. *Rice and Ragi.*—Rice and Ragi fetched a somewhat higher price than in the previous year, the average rate being Rs. 3—7—8 in the former case, and Rs. 1—9—7 in the latter, per maund of 80 lbs. The scarcity at one time imminent in Mysore affected prices in Coorg.

WEATHER AND CROPS.

91. The rain-fall as registered during the year was as follows :—

At Mercara ...	...	...	127·88	Inches.
„ Somwarpet...	..	...	81·79	„
„ Anandapur (South Coorg)	...	...	67·90	„
„ Fraserpet ...	...	...	25·24	„
On the Western Ghauts	...	...	202·39	„

92. The above figures represented a fair average rain-fall. Taking the figures for Mercara alone, they are but little below the average of the returns for the past 10 years, namely, 129 inches, the highest during that period being 205 inches and the lowest 96¼ inches.

93. The early rains of March and April, during which months some 3 inches of rain were registered at Mercara, were favorable to coffee and rice, the two staple crops in Coorg.

HORTICULTURE.

94. The cultivation of cinchona, which was stimulated by the failure of coffee in certain localities in Coorg, has not made any marked progress. The returns show that 1,440,152 plants have been put down, as compared with 1,492,385 in 1884-85. Of these the largest number consists of *C. Succiruhra*, next in order *Ledgerina*. The plant has been found to thrive well in high situations, and one estate (Manjakolli)

on the Sampaji Ghaut range alone holds 150,000 and has produced 7,000 lbs. of bark in the past year. The "Elk Hill" Estate in South Coorg possesses 105,000 plants yielding 700 lbs. in the year. In lower attitudes the success of the cultivation seems doubtful, much of that planted among coffee as well as separately having died out.

FORESTS.

95. Act VII of 1865 which applies only to the demarcated and gazetted State forests remained in force during the year. The control of all other forests was exercised as heretofore in virtue of custom and the State's ownership of the soil. The long pending question of a new general forest law for Coorg was finally decided after the close of the year under report in favour of the Indian Forest Act VII of 1878. The steps taken for applying the provisions of the new law will be noticed in the next report.

96. The area of State forests (i. e. "Government forests" demarcated and gazetted under section 2 of Act VII of 1865) amounted to 239 square miles one mile having been added during the year. The survey of the portion of the ghaut forests, which it is proposed to reserve, was completed during the year; but towards its close, it was found that several alterations and corrections were needed, and orders were accordingly given to carry out the work of revision without delay.

97. The result of fire protection has been less successful during this year than in the two previous years. The area attempted was about 199 square miles, in one-tenth of which protection failed. The failures in 1884—85 were 9 per cent, and in 1883—84, 8 per cent. The cost of protection was less being Rs. 15 per square mile against Rs. 18 in the previous year. Several of the fires were due to the negligence of the Forest subordinates who were suitably punished; but the most disastrous fires are reported to have crossed into Coorg from the adjoining forests of Mysore and Wynaad.

98. An addition of 40 acres was made to teak plantations and of 20 acres to sandalwood plantations. The total area planted is 1,002 acres, made up as follows:—

Teak	.. ..	596 acres.
Sandalwood	..	321 „
Fuel	.. ..	85 „

99. The following statement shows the number of trees felled during the past five years.

Year.	Teak trees.	Other trees.	Total.
1881—82	808	741	1,549
1882—83	494	1,186	1,680
1883—84	817	969	1,786
1884—85	858	843	1,501
1885—86	874	1,015	1,889

100. The next statement gives the quantities of timber brought to depots and sold during the same period.

Year.	Brought to depots.			Sold in Depots C. ft.	Sold locally. No. of trees.
	Teak C. ft.	Other C. ft.	Total C. ft.		
1881—82	23,404	16,407	39,811	28,966	483
1882—83	15,972	17,988	33,960	40,388	359
1883—84	26,285	17,995	44,280	46,479	666
1884—85	28,116	26,779	54,895	49,350	618
1885—86	26,753	16,336	43,089	43,504	1,614

101. The total yield of the Government deciduous forest for the year was estimated at 2,50,601 Cubic feet of timber, of which 90,679 Cubic feet were teak. The quantity of timber cut by the Forest Department was 67,556 Cubic feet or 27 per cent, of which 36,792 Cubic feet or 40 per cent was teak. There is therefore a wide margin for the expansion of felling operations; but these operations have to be regulated by the demand and by the means of export. The deficiency of carriage is the great impediment.

102. The number of bamboos brought to depots was 14,116 against 36,249 in 1884—85, and the number sold from the depots was 13,809 against 33,457. 1,97,518 bamboos were sold in the forests against 1,84,646 in the previous year. The total amount realized was only Rs. 1,854 against Rs. 2,873 in the year 1884—85. The decrease is due to the reduction in the price of bamboos from Rs. 15 to Rs. 7—8—0 per thousand, which was made with the object of securing larger sales. As this object has not been attained to any appreciable extent the price has been raised again to Rs. 10 and 15 with certain inducements to purchasers of large quantities at a time.

103. The following statement exhibits the quantities of sandalwood collected and sold during the past 5 years with the revenue realized.

Year.	Quantity brought to depots in tons.	No. of tons sold.	Amount realized.	Average rate per ton.
1881—82	126¾	60¾	14,059	231
1882—83	117½	192¼	77,407	403
1883—84	74¼	36¼	10,908	301
1884—85	72¼	118¾	35,650	300
1885—86	80½	118½	27,954	236

The balance in stock at the end of the year was only 8 tons.

104. The financial results are:—

Year.	Receipts.	Charges.	Surplus.
1884—85	1,13,233	76,952	36,281
1885—86	89,386	65,690	23,696

The ratio of charges to receipts is therefore about 68 per cent against 73 per cent in the year 1884—85.

MINES AND QUARRIES.

105. There is nothing doing in Coorg to report under this head.

MANUFACTURES.

106. The number of native hand looms is returned at 123, being a slight increase over that of the previous year. The manufacture of cotton cloths is confined to a few villages in North Coorg.

107. The artizans in the country consist chiefly of carpenters, ironsmiths and goldsmiths. Their numbers are returned at 96 carpenters, 158 ironsmiths and 172 goldsmiths, and as compared with the returns of previous years, show some decline. These classes are very largely, if not wholly, recruited from outside Coorg, the Coorgs themselves being exclusively agriculturists.

TRADE.

108. *Exports.*—The coffee exported from Coorg in the past year is returned at 3,877 tons. The figures are obtained from the toll gate contractors and are manifestly understated. The actual outturn of coffee in Coorg may be taken to have

been about 5,500 tons, of which all but a small quantity must have been exported either to the West Coast or eastward to Bangalore.

109. The local price of coffee averaged about Rs. 480 per ton, or Rs. 24 per cwt. as compared with Rs. 26—4—0 per cwt. in the previous year. The English price ranged from £ 60 to £ 65 per ton after deducting shipping and other charges.

110. The cardamom crop was a good one, the quantity exported being returned at 1,820 cwts. The price which had fallen to Rs. 141—8—0 per cwt. in 1884—85 sank to Rs. 80 per cwt. with ruinous results to the renters of the cardamom *malles* as the blocks of forest on the slopes of the Western Ghauts where the cardamom grows are called.

111. *Import.*—The imports into the province show a falling off chiefly in piece goods, metals, grain, and building materials, the result of the steady decline of trade which has been apparent for several years past in the province. The large reductions made in the employment of foreign labour owing to the abandonment of numerous coffee estates, and the necessity of greater economy in working those that are left, have necessarily affected the imports of grain and other articles.

112. The price of provisions has been almost stationary; that of jaggory shows a decrease owing to the abundant sugar-cane crop raised in parts of Mysore; salt was also selling cheaper.

113. The price of arecanut has risen, the article being prepared for shipment at the Coast. Kerosine oil has further declined in price by about 10 per cent.

114. Under the head of "Sundries" is included manure imported from the Coast. The returns show that 2,384 cart loads of bone and fish manure and 209 of oil cake were imported into the Province. The value is estimated at Rs. 50,000.

PUBLIC WORKS.

115. The original budget grant under Imperial Civil Works for the year under notice was Rs. 1,80,000; but owing to Imperial exigencies, the expenditure was, by order of the Supreme Government, limited to Rs. 1,40,000; which was subsequently raised to Rs. 1,41,000 by an additional allotment of Rs. 1,000 sanctioned by the Government of India for the purpose of constructing a combined Post and Telegraph Office at Virajendrapet.

116. The actual expenditure under all heads amounted to Rs. 1,48,817, so that the modified grant for the year was exceeded by Rs. 7,817. This excess is chiefly due to the debit to "Stock" of a sum of Rs. 2,670 and to the non-adjustment till the close of the official year of Rs. 5,133 under "Miscellaneous Advances." There was also an excess outlay on Tools and Plant of Rs. 1,606, which, however, was nearly balanced by short outlay on Original Works, Repairs and Establishment, of Rs. 1,580.

117. The outlay under the different heads as contrasted with the revised grants is shown in Statement No. I appended to this report.

118. Civil Buildings.—*Original Works.*—The expenditure under this head was Rs. 24,037 against the modified grant of Rs. 25,000, showing a lapse of Rs. 963. The following are the principal works that were in progress during the year.

(*a*) Improving the old Palace, now used for Public Offices, and the District Jail at Mercara and the 1st Assistant Commissioner's Court at Virajendrapet.

(*b*) Constructing Nad Cutcherry at Gonicopal, Police Station and Post Office at Wantangadi, and 3 tiled sheds at the Madapatna Distillery, which work was completed during the year at an outlay of Rs. 743.—Vide Statement No. 4.

119. Civil Buildings.—*Repairs.*—Under this head was expended Rs. 2,581. The buildings put under repairs were 45 in number.—Vide Statement No. II.

120. Communications.—*Original Works.*—The outlay amounted to Rs. 43,904, or Rs. 404 in excess of the revised grant of Rs. 43,500.—Vide Statement No. 4.

(*a*) Opening out road from Mercara to Siddapur. This important line of communication was completed during the year at an outlay of Rs. 4,111 against a grant of Rs. 4,000.

(*b*) Opening out the Virajendrapet-Periapatam road. Progress on this work was satisfactory, the amount expended during the year being Rs. 15,461 against the modified grant of Rs. 15,000. On this road, the construction of the Malethodu Bridge was completed, and the abutments of the Guttadahalla Bridge were raised to springing level. The surface of the road having been properly metalled and maintained much facility was afforded to traffic throughout the line.

(*c*) Constructing bridge over the Cauvery at Siddapur. Under No. 17 C., dated 15th January 1886, the Government of India sanctioned a third revised estimate of Rs. 1,78,859 for this work. The allotment for the year was Rs. 16,501, and the outlay Rs. 18,561 resulting in an excess of Rs 2,061. The last arch of the bridge was finally keyed on the 26th May 1886, and the constructions of the permanent parapet wall, which remained unfinished at the close of the past official year, will be resumed during the current year to effect the final completion of the bridge.

121. COMMUNICATIONS.—*Repairs.*—The original grant of Rs. 40,800 was reduced to Rs. 32,968, against which were expended Rs. 33,651. All the roads were raised to standard and maintained in trafficable order throughout the year.

122. ESTABLISHMENT.—The modified grant under this head was Rs. 32,232, and the expenditure Rs. 31,447, showing a lapse of Rs. 785. The percentage of establishment to works is 30·18

123. MILITARY.—*Repairs.*—Expenditure not having been anticipated under this head, no budget allotment was sanctioned on account of Military works in Coorg; but on the formation of a Volunteer Rifle Corps in the Province it became necessary to spend Rs. 361 in repairing the old Commissariat Godown in the Fort at Mercara to make it suitable as quarters for the Sergeant-Instructor of the Corps. The outlay involved a charge of Rs. 83, and Rs. 5 on account of "Establishment" and "Tools and Plant," respectively.—Vide Statement No. 6.

124. INCORPORATED LOCAL FUNDS.—The outlay on works and repairs was Rs. 28,544 against the revised grant of Rs. 34,167 showing a lapse of Rs. 5,623. This lapse chiefly under original works is attributable to the scarcity of labor peculiar to Coorg.

125. The following were the principal works that were in hand during the year :—

Opening out the Ammatti-Tittimatti road.

Opening out the Fraserpet-Serungal road.

Improving the Mercara-Bagamandala road.

Do the Travellers' Bungalow at Watecolly.

126. GENERAL OBSERVATIONS.—The grants for the year under Imperial and Incorporated Local Funds amounted to Rs. 1,75,167, or Rs. 51,833 less than the sum allotted for the previous year, and the outlay to Rs. 1,77,722 as noted on the margin. Considering the comparatively small amount placed at the disposal of the Executive Engineer for expenditure, and other difficulties, the progress during the year may be looked upon as not unsatisfactory.

TELEGRAPHS.

127. The arrangements made for combining the Telegraph and Post Offices throughout Coorg were completed in July 1885.

128. At the instance of the European Planters in South Coorg, the Government has sanctioned the extension of the telegraph line from Ammatti to Pollebetta.

129. The number of messages which have passed through the offices in Coorg during the past year is as follows :—

Mercara	.	..	2,064
Virajendrapet	..	..	500
Ammatti	.	..	552
			3,116

POST OFFICE

130. The Coorg District Post consists at present of 13 Sub-Post Offices, 3 village Post Offices, 4 mail lines, with 7 branch lines and 17 village delivery circles. The changes effected in the Postal Establishment during the year have been of an unimportant character.

131. A Savings Bank has been attached to the Post Office at Napoklu, and those opened experimentally at Santikopa and Bagamandala have been confirmed.

132. The village delivery circles have been revised in some cases in order to make them more workable and to expedite the letter deliveries. For this purpose Beppunad has been attached to Murnad, and Ammattinad to Virajendrapet. Bengnad has been transferred from the Napoklu circle to Bagamandala.

133. The village Post Offices at Kakkabe and Hudikeri have been placed on an independent footing.

134 The efforts made to enlist Coorgs for service as local Post Masters are still attended with no success. Most of those entertained when the department was organized in 1881 have since resigned. The duties are distasteful as they do not admit of the incumbent going to his Nad on holidays and other occasions.

135. The total receipts from postage labels amounted to Rs. 22,137—1—0 as against Rs. 17,887—2—0. Of the above sum Rs. 16,357—8—0 was derived from ordinary labels, and Rs. 5,779—9—0 from service labels. The increase is largely due to the fact that postage labels are made use of for payment of telegraph messages in the sub-offices at Virajendrapet and Ammatti.

136. The total cost of the postal service in Coorg amounted to Rs. 17,083-9-6 ; of which Rs. 8,381—12—3 were on account of the District Post, and 8,701-13-3 on account of the Imperial Post.

IRRIGATION.

137. Nil.

V. REVENUE AND FINANCE.

A. IMPERIAL REVENUE AND FINANCE.

138. The total demand for the year amounted to Rs. 6,41,183—9—5, against Rs. 7,05,730—11—1 in the previous year, being a decrease of Rs. 64,547—1—8. The falling off occurs mainly under the following heads :—

(a)	Coffee land assessment	..	Rs. 24,557—8—0
(b)	Forests—short sales	..	„ 20,978—0—0
(c)	Abkari—reduced sales	of liquor „	15,186—4 11

The items of increase and decrease are explained below:—

139. *Land Revenue.* The demand under the head of ordinary land assessment and its adjunct the Dhuly Paddy tax amounted to Rs. 1,77,623—13—11 against Rs. 1,76,990—12—6 exhibiting an increase of Rs. 633—1—5.

140. Under the head of coffee assessment, however, the revenue has been diminished to the amount of Rs. 24,557—8—0 by the remission of half or two-thirds of the assessment for periods of 7 and 10 years granted by Government to owners of half ruined estates situated in certain unfavourable localities to give them a chance of recovery.

141. The demand under casual land revenue amounted to Rs. 17,526—5—4 as compared with Rs. 24,483—12—1. The main item of decrease namely Rs. 6,047—7—7 relates to the sale of waste lands, the demand for which, at a time of depression in the coffee trade, has greatly fallen.

142. The recent orders of the Government of India prohibitory of the conversion of *sagu* lands into *jamma* tenure have had the effect necessarily of reducing the *Nazirkanike* fees very considerably.

143. The demand under forests shows a falling off of Rs. 20,978—11—0. Of this sum Rs. 19,750 represent the decrease from short sales of sandalwood, great difficulty having been experienced by the Forest Department in collecting and transporting it to depot.

144. Under the head of Abkari, the demand was reduced by Rs. 15,186-4-11, the issues at the Sudder Distillery, where the still head duty is collected, having fallen from 41,139 gallons in 1884—85 to 35,788 gallons in the year under report. There was some decrease also in the amount of License fees owing to a reduction in the number of retail vend shops; on the other hand the revenue from toddy showed an increase of Rs. 613—12—0.

145. Under the head of miscellaneous revenue which comprises Stamps, Registration, Post office, Law and Justice, Jails, Education &c., a net increase of Rs. 2,499—11—7 is exhibited.

146. The increase of Rs. 4,249—15—0 from Post Office was contributed largely by the use of postage labels on telegraphic messages at the offices where the Post and Telegraph are combined. The other items of increase are from Law and Justice, Education, Survey, and Miscellaneous. On the other hand the heads stamps, Telegraphs, Jails, and Interest, show a falling off.

147. The falling off under stamps arose from the diminished sales of non-judicial stamps, the receipts being Rs. 15,703—10—0 as compared with Rs. 19,472—13—0 in the previous year. The decrease was nearly counterbalanced however by the revenue from Court fee stamps, which was increased by Rs. 3,532-7-0, mainly due to the institution fees levied on 3 suits of large value filed in the District Judge's Court by Banking and Agency Firms.

148. The decrease under Jails is nominal, the price of work done for Government offices is not now realized in cash but adjusted by book transfer. The cost of printing so adjusted amounted to Rs. 1,762—2—0.

149. The balance of revenue under all heads outstanding at the close of March 1885 was Rs. 2,45,491—5—9. Deducting from this sum Rs. 52,759—2—6 subsequently remitted and struck off as irrecoverable, the amount actually brought forward was Rs. 1,92,732—3—3 which, added to the demand for 1885—86, viz, Rs. 6,41,183—9—5, gave an aggregate sum of Rs. 8,33,915—12—8. Of this amount Rs. 6,43,628—14—6 were realized up to 31st March 1886 leaving a balance of Rs. 1,90,286—14—2.

150. This balance was reduced at the close of June 1886 to Rs. 89,062-8-1; of which the greater part viz. Rs. 58,631—3—6 consists of coffee assessment remaining to be recovered. The gross realization on account of Imperial revenue amounted to Rs. 6,53,125—1—7, and the net receipts after deducting refunds and charges against income amounting to Rs. 2,02,505—9—11 are shown at Rs. 4,50,619—7—8. The expenditure charged against net income was Rs. 3,36,592-2-9 leaving a surplus of Imperial revenue amounting to Rs. 1,14,027—4—11 as

4881

compared with Rs. 97,235—4—10 in the previous year. The excess in the surplus is due largely to the diminished expenditure on Public Works, which in the previous year was exceptionally heavy owing to the construction of the Siddapur Bridge.

151. At the close of 1884—85, the cash balance in the Coorg Treasuries stood at Rs. 1,84,989—4—5. The net revenue collected, including items of local revenue, amounted to Rs. 5,13,595—0—2. The revenue received but paid away and charged against income amounted to Rs. 2,02,742—0—1. Deposits amounted to Rs. 32,228—0—7. Receipts on account of bills drawn on other treasuries amounted to Rs. 1,87,916—5—1, of which Rs. 1,51,746—1—1 represents receipts of the Postal Department on account of Money Orders, Savings Banks, Bearing charges &c.

152. Remittances from other treasuries amounted to Rs. 1,11,000, of which Rs. 30,000 consisted of silver coins and Rs. 81,000 copper. These sums, with a small amount on account of repayment of advances, bring up the total transactions of the Coorg treasuries on the credit side to Rs. 12,34,271—2—11.

153. The disbursements, which included a remittance of Rs. 1,95,000 in currency notes to Madras, amounted to Rs. 8,41,774—6—11 leaving a cash balance of Rs. 3,92,496—12—0.

B. REVENUE AND FINANCE OTHER THAN IMPERIAL.

154. The revenue balance of District Funds outstanding at the beginning of the year was Rs. 4,346—15—3. Adding to this the demand of the year namely Rs. 39,368—11—2, the total amount for collection was Rs. 43,715—10—5. The actual collections, after deducting remissions as well as the amount collected in advance of demand for 1886—87, and after adding Rs. 4,047—9—0 collected in 1884—85 on account of the year 1885—86, amounted to Rs. 42,170—11—3, thus leaving Rs. 1,711—9—3 outstanding at the close of March 1886.

155. The following items compose the demand :—

	Rs.	As.	P.
Tolls on roads	19,505	0	0
Plough tax	5,719	11	1
Contribution from Imperial to Local Fund Schools	2,600	0	0
Refunds	10	0	0
School Plantation Fund	3,100	12	0
Market fees	1,221	9	0
Tolls on ferries...	1,420	10	0
Staging Bungalows	678	0	0
Pound fees	1,962	9	2
Miscellaneous items	3,150	7	8

156. The demand under Tolls on ferries was reduced from Rs. 1,817 in the previous year to Rs. 1,420—10—0 in consequence of the Nellikadu ferry having been closed on the completion of the Siddapur Bridge.

157. The expenditure incurred was on account of the following items :—

	Rs.	As.	P.
Refunds	31	3	6
Cost of Establishment	2,701	0	1
Works by Public Works Department	28,544	0	5
School Plantation Fund including investment	3,638	5	2
	34,914	9	2

MUNICIPAL FUNDS.

158. The total assets of the 5 Municipalities of Mercara, Virajendrapet, Fraserpet, Somwarpet and Kodlipet, including the opening balance of Rs. 5,497—4—7, amounted to Rs. 26,538—8—0.

159. The aggregate expenditure from Municipal Funds during the year was Rs. 21,861—13—0. The main items were for—

Conservancy	6,429	1	8
Lighting	760	4	3
Dispensaries	6,027	3	0
Primary Schools	3,002	13	7

VI. VITAL STATISTICS AND MEDICAL SERVICES.

DETAILS OF CENSUS.

160. Nil.

BIRTHS AND DEATHS.

161. The number of births registered during the year was 3,118 or 17·48 per mille of the population against 2,652 or 14·87 per mille in the year 1884. The number of deaths was 2,956 or 16·57 per mille against 2,689 or 15·08 per mille. These figures indicate improvement in registration generally, and of the more difficult matter of birth registration in particular, for in former years the deaths reported largely exceeded the births.

162. Of the 2,956 deaths, no less than 2,356 or nearly 80 per cent are attributed to fevers against 85 per cent in the year 1884. Fever seems to be used as a convenient term to comprehend all causes of death not known to the registering officials. In the Hospital returns the Civil Surgeon reports that the proportion of fever to other cases was 2,087 to 9,341. The deaths from small-pox were 240 or nearly 9 per cent. There were no deaths from cholera.

EMIGRATION.

163. Nil.

MEDICAL RELIEF.

164. The number of patients treated in the two Hospitals and Dispensaries was 12,979, of which 497 were in-patients and 12,482 out-patients. The number treated in the previous year was 12,544, of which 478 were in-patients and 12,066 out-patients, the increase being thus 19 and 435, respectively.

165. The income of the two institutions was Rs. 11,930-4-4, viz. Rs. 5,664-5-11 in Mercara and Rs. 6,265—14—5 in Virajendrapet, all of which was expended. The income in the previous year was 11,014—12—0, and the expenditure Rs. 9,953-0-5. The amount of invested capital is Rs. 5,900.

SANITATION.

166. No works of a strictly sanitary nature have been executed during the year, but in the 5 Municipal towns attention continues to be paid to keeping the roads and drains clean, and to preventing the accumulation of filth in the neighbourhood of dwelling houses.

VACCINATION.

167. There has been a slight falling off in the outturn of work in this department. The number of primary operations by the Government and Municipal Vaccinators and in the Dispensaries was 9,558, of which 8,677 or 90·78 per cent were successful cases. The corresponding figures in the previous year were 9,896 and 8,738 or 88·30 per cent. The number of cases of re-vaccination was 646, of which 478 or 74 per cent were successful, the corresponding figures in 1884—85 being 702 and 466 or 66·38 per cent. The total number of operations was accordingly 10,204 against 10,598 in the previous year or 394 less, the successful cases being 9,155 against 9,204, or 49 less. These results are not unsatisfactory, for they show that the great advance in vaccination secured in the preceding year has been fairly maintained.

168. The number of children successfully vaccinated was 900 under one year, and 4,478 above 1 year and under 6 years of age, the corresponding figures for the previous year being 895, and 4,020, respectively. These figures indicate that vaccination is becoming somewhat less unpopular with parents. But on the other hand in the four Municipal towns in which the Vaccination Act XIII of 1880 is in force 445 notices were issued, 168 summonses served, and 12 fines aggregating Rs. 19 inflicted. The corresponding figures in 1884—85 were 289 notices, 139 summonses and 11 fines.

169. The cost of the department was the same as in the preceding year, viz, Rs. 1,808.

VII. INSTRUCTION.

GENERAL SYSTEM OF PUBLIC INSTRUCTION.

170. Vide paragraphs 181 to 184 of the report of 1882—83.

EDUCATION.

171. The number of schools of all kinds, of pupils, and the amount of fees paid by them, for the past two years are contrasted in the following tabular statement.

Class of Schools.	1884—85.			1885—86.			
	Schools.	Pupils.	Fees.	Schools.	Pupils.	Fees.	
Secondary Education.							
Government Schools—English (Mercara Central)	1	321	3,165	1	330	3,152	Divided into High, Middle and Primary.
Municipal do do (Virajendrapet)...	1	77	307	1	86	699	Divided into Middle & Primary.
Aided do do (Mercara St. Mark's)	1	16	562	1	20	770	
Primary Education.							
Government Schools—English ...	3	166	278	3	140	275	
Do do Superior Vernacular...	2	102	69	2	116	168	
Do do Inferior Vernacular...	54	2,789	..	56	2,813	...	
Municipal Schools do ...	4	226	141	5	254	171	
Aided do do ...	4	128	40	5	144	42	
Special Schools.							
Normal School—Vernacular	1	14	...	1	14	...	
Total Departmental Municipal and Aided...	71	3,842	4,562	75	3,917	5,277	
Private or unaided schools	30	404	2,583	32	531	2,576	
Total of all kinds ..	101	4,246	7,145	107	4,448	7,853	

This statement shows that the steady progress in education noticed in several previous years' reports has been maintained.

172. The number of pupils attending the 75 departmental, Municipal and aided schools increased by 75, and the fees collected by Rs. 775, which is satisfactory.

173. There were 32 private or unaided schools attended by 531 pupils, who pay in fees Rs. 2,576, or Rs. 4—13—7 for each pupil per annum. On the other hand each pupil in the departmental and aided schools is shown as paying on the average only Rs. 1—5—6 per annum; but this very low average is due to the fact that no fees have hitherto been demanded from the pupils attending the inferior vernacular schools, the cost of which was till 1884—85 defrayed entirely from a voluntarily imposed rate on ryot's holdings. Fees paid by pupils attending the other schools where fees are levied averaged Rs. 4—12—6 per pupil, which is nearly the sum collected per head in the private schools. In future, however, the general average will be somewhat higher as it has been decided to levy fees in all the schools.

174. Classified according to race or creed the 3,917 pupils attending the Government Municipal and aided schools were composed of 2,461 Coorgs, 1,120 other Hindus, 159 Mahamedans, 20 Europeans and Eurasians, 122 Native Christians, and 35 others. Classified according to sex there were 3,428 boys and 489 girls. About 9 per cent of the Coorgs, or 15 per cent of the males and 2·60 per cent of the females, are under instruction in public or *quasi* public schools besides those in private schools. Assuming that the proportion of children of school going age to the total population is 15 per cent, the above figures imply that the whole of the boys of the Coorg race are attending school, which is highly to the credit of the Coorgs.

175. The accommodation in the boarding house attached to the Central School having been found to be insufficient, a vacant Government building was placed at the disposal of the Educational Department as an additional boarding house. About half the 104 boarder students have been moved into it. This measure has been found of decided advantage to the health and comfort of the boarders.

176. A marked improvement has been made under the head of inspection, the number of visits of inspection made by the Inspector having been 72 against 40 in 1884—85, and by the Deputy Inspector 208 against 101.

177. The Mercara Central School is the only school in the province which has hitherto done anything in preparing pupils for examinations. Out of 11 boys who were presented for the Matriculation standard 10 passed, 3 in the first class. This is an improvement on the results obtained in the previous year, when only 3 passed out of 9. On the other hand there has been a falling off in the results of the Middle School Examination, only 12 candidates having passed against 20 in the year 1884—85. The cause of failure was probably the raising of the standard of the examination.

178. Some attention has been paid during the past three years to the establishment of scholarships. When all the scholarships that have been sanctioned are assigned, which must depend to a certain extent on the funds available, there will be 23 scholarships as follows:—

8 scholarships at Rs. 15 per mensem paid from an Educational endowment consisting of a coffee estate managed by a Local Committee;

9 scholarships at Rs. 15 per mensem; and

6 at Rs. 10 per mensem paid from Imperial revenues.

23

179. The expenditure under all heads, Imperial, Local, Municipal, fees and endowments, amounted to Rs. 40,554 against Rs. 31,559 in the previous year—an increase of Rs. 8,995, of which Rs. 3,990 are under the head of Imperial. In the above figures the sum of Rs. 2,600 grant-in-aid to the plough tax fund may be said to be included twice over as it appears first as an imperial charge and again as expended from a local fund.

LITERATURE AND THE PRESS.

180. Nil.

LITERARY SOCIETIES.

181. The Newspaper Club and Debating Society attached to the Central School has been usually returned under this head. Debates were occasionally held during the year, and some lectures in Canarese were well attended. The subscriptions amounted to Rs. 366—12—0 during the year.

ARTS AND SCIENCES.

182. Nil.

VIII. ARCHÆOLOGY.

183. Nil.

IX. MISCELLANEOUS.

ECCLESIASTICAL JURISDICTION.

Ecclesiastical.

184. The Province has been without the services of a Church of England Chaplain during the greater part of the year, the Revd. F. C. Hill M. A. who joined in September 1885 having been again withdrawn for service with the expeditionary Force in Upper Burmah in the November following.

185. *Basel Evangelical Mission.*—The Revd. F. Viel was succeeded at Mercara during the year by the Revd. J. Hafner. The number of Native Christians attached to this body is reported to be 244 besides 19 Europeans.

186. *Roman Catholic Mission.*—The Revd. P. Grandin has taken charge of the Mission in succession to Revd. P. A. Ranluarean. The members of this communion are returned at 2,030 natives and 94 others.

STATIONERY.

187. Nil.

GENERAL MISCELLANEOUS.

MUZARAYI.

188. The grant made to the temples amounted to Rs. 13,785—15—2. The income of these institutions was supplemented by Rs 990—5—0 derived from Jodi allowances on land as well as by Rs. 9,566—13—5 from land endowments, the aggregate receipts being Rs. 24,343—1—7.

189. These funds, together with the offerings made at the temples, are controlled by a Committee, of which the 2nd Assistant Commissioner is ex-officio President. The members of the Committee have not been appointed under Act XXII of 1863, and so far as regards therefore all monies other than voluntary offerings received for the maintenance of the temples &c. the 2nd Assistant Commissioner has been desired to render periodical accounts to the Commissioner's office.

APPENDICES.

STATISTICAL TABLES.

* The Percentage required for 2 (a), 2 (b), 2 (c) are to be calculated from the figures given in columns 7 7 b, 7 c, respectively of General Table IV.

† The annual cost is calculated on the direct expenditure only. The average cost of educating each pupil is obtained by dividing the direct expenditure by the average number on the rolls monthly during the year.

‡ The average cost of each pupil in Local Fund and Municipal Schools to be obtained from the figures given in General Table VII.

§ Fractions of a rupee should be omitted, except in the columns showing the average annual cost of educating each pupil.
